

For: Diogo & Rita

From: Jamie

Date: 10 August 2026

Goal: the new agorasim.pt live and taking paid bookings in **4 weeks**.

The website is nearly built. What's missing is not code — it's **your real-world information**. Every item below is currently either a placeholder, an invented number, or a legal blank in the site. The faster you answer, the faster we launch.

How to reply: answer directly under each question in this document, or send answers by WhatsApp/email in any format — voice notes are fine for everything except the legal facts in Section 1, which need to be written and exact.

☐ Section 1 — Blocking. Needed in the first 2–3 days.

Nothing can go live without these.

1.1 Company & legal facts

The site must publish a privacy policy and legal identity. Right now it contains blanks. Please provide, exactly as officially registered:

Registered company / trading name (as on official documents)

[Agorasim Vintage](#)

NIF (tax number)

[234840919 \(my personal trabalhador independente\)](#)

Registered business address

[Rua dos Lavadouros 33 Ramilo 2640-372](#)

RNAAT tourism operator registration number (animação turística licence)

Liability insurance provider + policy number (guests will ask; we may reference it)

Do you invoice customers yourselves? (affects how long we must legally keep booking data)

1.2 Payments — Stripe

You chose to take **full payment online at booking**. I will set up the Stripe account myself, but Stripe legally requires the account owner's details. Please send:

Whose name the account should be in (Diogo, Rita, or the company) + that person's full legal name and date of birth

Diogo Santos Trajano

Company NIF (same as above) and legal structure (sole trader / Lda / other)
234840919

Business IBAN for payouts (bank account payments land in)

PT50 0010 0000 2411 3980 0011 8

A photo of the account owner's ID (Cartão de Cidadão or passport) — Stripe identity check (sent via whatsapp)

Phone number and email to attach to the account

+351926210707

info@agorasim.pt

Stripe activation can take a few days after submission — this is why it's in the day-1 list.

1.3 Domain access — agorasim.pt

You control the domain. I need to point it at the new site on launch day, and DNS changes need lead time.

Which company is the domain registered with? (e.g. amen.pt, GoDaddy, dominios.pt...) amen.pt

Either the registrar login, **or** we do a 15-minute call where you log in and add me as a delegate / change the settings together:

They gave me this login to manage the DNS, I remember they also have created the email for us, will these changes affect the functionality of the gmail workspace or everything will stay the same? I just sent an email for them to stop the contract and have the domain on my side, waiting for their answer.

login: info@agorasim.pt

Pass: 2swuf6e4T!

Is anything currently live at agorasim.pt that we must keep or redirect?

1.4 Real prices

Every price currently on the site is an invented placeholder. Confirm or correct each:
Will send you via whatsapp a table with everything on detail,

Experience	Placeholder on site now	Real price?
------------	-------------------------	-------------

Rural Saloia (signature tour)	€145 per person	—
Tasco Galapito add-on	€35	—
Manzwine add-on	€25	—
Ramilo Wines add-on	€25	—
Olaria MZ add-on	€20	—

And the rules around money:

Is the price **per person** or **per car/party**? person

Children — same price, discount, or free under some age?

Cancellation policy: the site currently claims "*free cancellation up to 48h before*" — is that right? If not, what is your policy? (Customers pay in full online, so refund rules must be exact.) **correct**

Bad-weather policy: reschedule, refund, or your call? **Try to reschedule via email or refund on extreme conditions**

1.5 Availability — how many tours can you actually run?

Customers will pick real dates from a live calendar, so we need to model your true capacity:

How many tours can you run **on the same day**? (You have 4 cars — but how many drivers/guides?) **2 drivers**

Which days of the week do you operate? Any fixed days off? **No fixed days off**

Typical start time(s)? Could you ever run two Rural Saloia tours in one day, or is 6–7h the whole day? **2 slots : 10 am / 2 pm**

Seasonality: months you don't operate, or reduced days? **Functionality to close a window**

Blackout dates already known (holidays, weddings booked, car maintenance)? **We can close that ourselves once is live**

Confirm: maximum **3 guests per car** — correct? Same for every car? **The Citroen 2cv/ Renault 4L capacity is 3 guests, so we will drive the Volkswagen**

T3 classic van for groups up to 8. For bigger groups we can combine both cars at the same time. Max Capacity 14 guests (2 vans)

Who will keep the calendar updated day-to-day — Rita (You'll do this from your phone in the admin console.)

□ Section 2 — Needed within week 1. Content that sells.

2.1 Photos

The site has only 8 usable photos and reuses generic car shots for the partner experiences. Phone photos are fine — **landscape orientation, highest quality your phone allows, no screenshots**. Send via WhatsApp (as *documents*, not compressed photos) or Google Drive.

Tasco Galapito — the space, the food, guests at the table (3–5 photos)

Manzwine — vineyard/cellar/tasting (3–5 photos)

Ramilo Wines — same (3–5 photos)

Olaria MZ — the workshop, pieces, hands at work (3–5 photos)

Tours in action: guests in cars, picnic moments, viewpoints along the route (the more the better)

Volkswagen T3 - 1988

Seats available for guests 3 guests for all except VW 8 guests

One sentence of personality/history per car (where it came from, a nickname, a story)

Josefina — Citroën 2CV

A cherished family car, forgotten in Diogo's garage for twenty years, Josefina has been lovingly brought back to life and returned to the road, as though she had always been destined to travel again.

Catrel - Renault 4L

Once a hardworking family car and used by a battery workshop, this 4L has been given a new lease of life, still ready for work, but now equally happy taking us out for a leisurely drive.

Cerejinha — Fiat 600

Rescued from the scrap yard and restored down to the finest detail, this is the oldest and most refined car in the collection a little jewel of timeless elegance.

Caravela — Volkswagen T3

Rescued from a surf school, weathered by years of salt and rust, Caravela has been completely restored and now sails the roads as our beloved little bus

2.3 Weddings

The weddings page is launching. We need:

What exactly do you offer? transport of the couple, photo sessions with the cars, flowers decoration, personalised wooden boards

Pricing — quote per event depending on location

Coverage area and any distance limits- no limits

How far in advance must couples book? – 3, 4 months before

2.4 Partners

For Tasco Galapito, Manzwine, Ramilo Wines:

Contact person + phone for each (internal use — coordinating bookings)

How does a booking work with them today? Ramilo Wines has a minimum of 3 guests, Manzwine and Tasco Galapito minimum of 2 guests. Olaria is no longer with us

Do any of them need to approve how we describe them on the site?

Manzwine does the week break on Mondays, the other two can be made instant booking, the description you can use the text on the older website

Any commission or pricing agreement we must respect when publishing prices? On price table sent on whatsapp is detailed everything per person

2.5 Testimonials

There is zero social proof on the site. Please gather **3–5 short quotes from past guests**:

Their words (PT or EN, 1–3 sentences), first name + country/city, and their OK to publish

Even better: a photo of them from the tour, with permission

Jacob and Danita (Canada):

Actually, it is very hard to put in words the AMAZING experience we had with Diogo and Rita! We have been married 41 years and have visited 88 countries.... And yet we were giddy like kids in a candy store. It felt as if it was out of a movie... Surreal. We had the 2CV6 (a fav of ours). We literally squealed from pure delight as we took off the beaten track small roads where it seemed we were the only people. They took us to non touristy hooks nooks and crannies. Also, a charming, quaint ancient little village where I lost my heart. We listened to music in the car... All of our most favourite music with the roof off.... SOOOOO romantic. We could not have hoped for better company. We chatted as if we were old friends. Two incredibly beautiful people, kind and generous in spirit. This has made our trip to Portugal most special. It simply would not have been the same without this 10/10 experience.

Madeline and Elliot (Australia):

We are beyond words! What a once in a lifetime experience! Diogo was an amazing host but also a fast friend with a wealth of experience and knowledge of the local area and it's surrounds. We learned more in one day about Portugal's history than we could have imagined. We were picked up in a charming and well looked after vintage Citroen and driven to visit so many beautiful locations. The places we visited were off the beaten path and we would have never found or experienced on our own accord. We loved the beautiful fado soundtrack Diogo was playing as we drove. We don't want to spoil it but it was full of unforgettable surprises! We finished with a picnic together, with the most incredible produce and home made delicacies and the most picturesque backdrop. They were truly some of the most beautiful mouthfuls of food we tried in Portugal - and we tried a lot! We had delightful conversation with scenery to die for and food so tasty it was beyond words! This was the best day we could have dreamed of and we can't wait to come back and do this again. Thank you Diogo and Rita!

Brian and Elizabeth (USA):

To be honest, I am not the best at writing reviews. I seldom ever do it. However, this experience and entrepreneurial couple deserve it! We were so glad we stumbled into this experience while scrolling through Airbnb Lisbon. It was truly unique and one of a kind. We explored the unbeaten path of the Sintra countryside, went to Ericeira and Mafra (which we didn't realize was part of the trip but were very pleasantly surprised!). Diogo and Rita also took us for a light lunch at a restored small village. We definitely saw Portugal in a different light, one that honored its traditions. We started out this trip as strangers but ended as friends. Hopefully next time we go to Portugal we can all meet again. Lovely trip!

2.6 Automatic Messages (the main difference is the Óbidos and medieval villages experiences is not on classical cars and the meeting point is in Lisbon centre instead of Portela de Sintra)

Olá, welcome to the countryside area where we grow up. It will be a pleasure to meet you.
